

Roman House is a registered residential service for people with profound learning and physical disabilities, as well as autism, offering 24-hour support for adults.

Introducing Roman House

Every individual we support will help to create their own person centred support plan which reflects their current needs and preferences, and includes a range of social and leisure activities to reflect their individual choices. The people we support are encouraged to develop daily living skills as independently as possible with guidance and support from staff.

Our dedicated staff team at Roman House are passionate about supporting people to fulfil their potential, and are highly experienced in supporting people with complex care needs such as NG feeding, PEG management, moving and handling and catheter care.

We aim to support every individual to achieve their goals and aspirations.

Our Services

- Are outcome-focussed and highly person-centred.
- Provide 24/7 residential care.
- Provide activities tailored to the interest of the individuals we support both in and out of the home.
- Are holistic, with person-centred care and support developed in collaboration with the people we support, their families and a multi-disciplinary team of health care professionals.

When appropriate, we can offer a pathway to greater independence, which may include assessment for one of our other services. We believe every individual should have the right level of care in an environment that enables them to continue growing.

Please contact us to discuss how we can work together to create a tailored transitions pack.
