

Bull Point House is a 5-bed residential care home in Plymouth supporting adults with learning disabilities, autism, physical disabilities and complex care needs to achieve their goals and aspirations while living their best lives.

## Introducing Bull Point House

Bull Point House and Annex is a 24 hour residential home for 5 adults supporting people with learning disabilities, mental health needs and Autism. The house has multiple functions and events throughout the year that involve getting all individuals within our service a chance to socialise and build relationships, our staff spend much of their time building relationships with the individuals in our service and promoting them to build upon all their own skills to prepare them to live the most independent life they can.

## About Bull Point House

Bullpoint House is placed on the waterfront with beautiful grounds, this large house is dated back to being the admiral's accommodation and still has a grand statement upon first sight on this house. All the rooms at Bull Point have bedrooms, lounges and en-suites and some have kitchenette areas. They are all decorated in consultation with the individuals to ensure it is something they want. One individual loves trains and has a train and tunnel wallpaper on the entrance to their flat. Another individual has recently had their room decorated and has a Barbie pink bathroom. There are local shops and other facilities nearby. Bull Point has 2 vehicles and other individuals have their own cars so we can support people to visit family or friends and access the community.

At a time that is right, we are able to offer a pathway to further independent living. This might include accessing one of our Supported Living or Outreach services. We strongly believe that every person we support should receive the right level of care in an environment that meets their needs wants and wishes. Please talk to us about how we can work with you to develop a transitions package.

Enhancing the lives of the people we support

## Our Services

- Are outcome-focused and highly person-centred.
- Provide 24/7 residential care.
- Provide activities tailored to the interests of the individuals we support both in and out of the home.
- Are holistic, with person-centred care and support developed in collaboration with the people we support, their families and a multi-disciplinary team of health care professionals.

## The Team

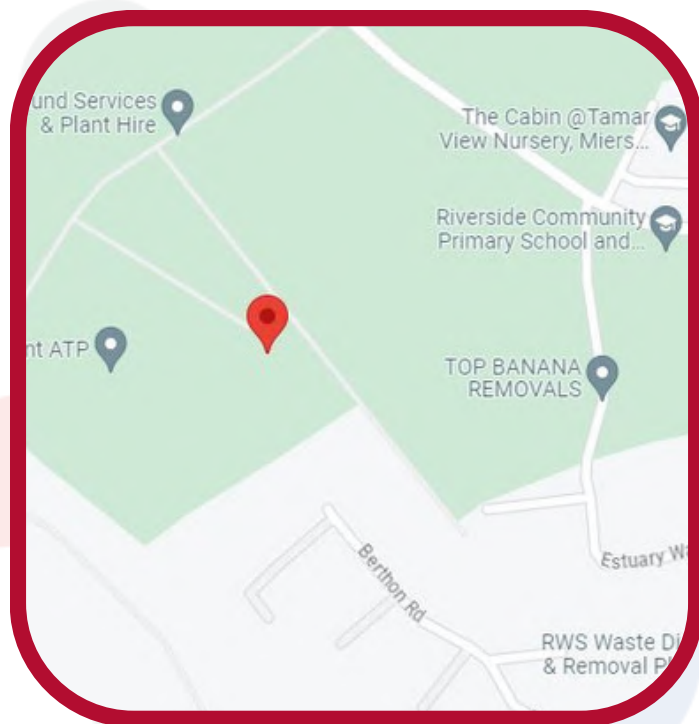

The team is led by an experienced Manager with many years of supporting people with learning disabilities and complex needs. The staff team are committed and focused on meeting the needs of the people they support.

*"People were supported by exceptionally kind and caring staff. Staff went out of their way to ensure people were happy and could recognise their own goals and start to take steps towards achieving them. People were treated with dignity and respect by staff who were supported to reflect on their practice."*
