

Greenways is a 17-bed residential care home in Pinner, supporting adults with learning disabilities, mental health issues, and complex needs.

Introducing Greenways

Greenways is a purpose-built, 17-bed care home situated in Pinner. Everything we do at Greenways is guided by the people we support, their personal needs, and the choices they wish to make. A personalised approach is central to the way we operate. We support every individual to build upon their existing skills and learn new skills to empower them to live as independently as possible. We support everyone to achieve their goals and aspirations.

About Greenways

- The home is situated in a leafy green urban area and has its own private garden.
- Two communal areas with lounges, kitchens, bathrooms, dining areas, and spaces for activities.
- Close to the local village which is only a 5-10 minute walk away.
- Close to local amenities such as supermarkets, restaurants, medical facilities, parks and walking paths.
- Good local transport links with bus stops just outside the home and train stations in Pinner and Hatch End.

At a time that is right, we are able to offer a pathway to further independent living. This might include accessing one of our Supported Living or Outreach services. We strongly believe that every person we support should receive the right level of care in an environment that meets their needs wants and wishes. Please talk to us about how we can work with you to develop a transitions package.

"Your team have always made me feel very welcome, and are all courteous and respectful during visits.

We work well as a team...and the staff are professional and competent in their handovers.

I have also visited a few of your residents, and when talking to them they always seem happy, well dressed and gave me good feedback about your team."
