## Our Services

- Are outcome-focussed and highly person-centred.
- Provide 24/7 residential care.
- Provide activities tailored to the interest of the individuals we support both in and out of the home.
- Are holistic, with person-centred care and support developed in collaboration with the people we support, their families and a multi-disciplinary team of health care professionals.

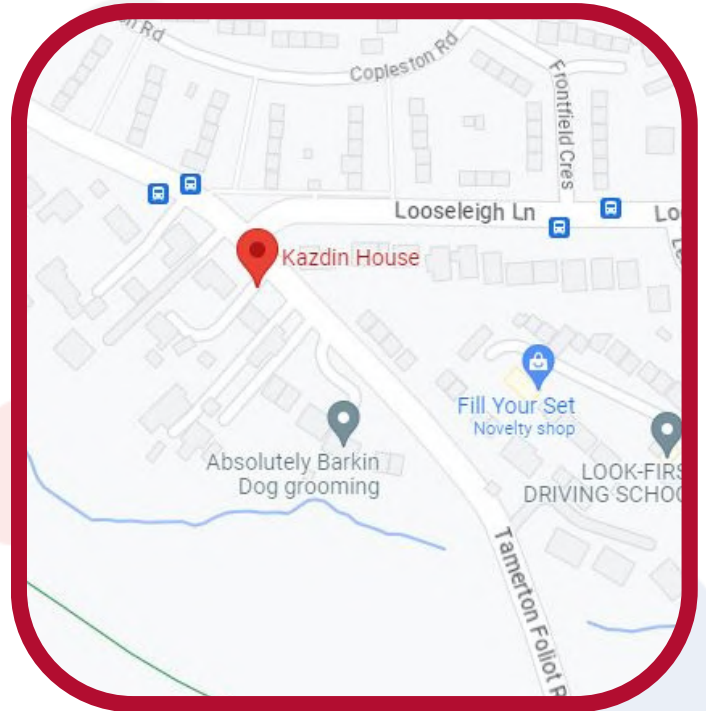

At a time that is right, we are able to offer a pathway to further independent living. This might include accessing one of our Supported Living or Outreach services. We strongly believe that every person we support should receive the right level of care in an environment that meets their needs wants and wishes.

Please talk to us about how we can work with you to develop a transitions package.

*"People were supported to have maximum choice and control of their lives and staff supported them in the least restrictive way possible and in their best interests; the policies and systems in the service supported this practice."*

*"The leadership team were focussed on people's strengths and wishes and worked with staff to create a culture of acceptance, understanding and celebrating people's strengths."*
