

Mount View is a 10-bed registered residential location in Stocksfield, Northumberland, offering 24-hour support partnerships with adults with learning disabilities, physical disabilities and autism.

Introducing Mount View

Mount View is located in a quaint village in Northumberland, in close proximity to the Angel of the North, the UK's most famous and largest piece of public art. We empower the independence of the people we support, because we truly believe all people are capable of achieving the extraordinary. That's why we provide a care support-partnership with the people we support tackling activities of everyday living, guided by the person's individual needs and wants. Together, we build upon their existing skills and learn new ones to enable life to be lived on their terms.

We have an in-house activities coordinator to arrange activities both in and out of the home, such as arts and crafts sessions, qualified aromatherapy sessions, and trips out using company transport.
