

Stanway Villa is a residential home for people living with a learning and physical disability.

Introducing Stanway Villa

Stanway Villa is set in lovely grounds surrounded by trees and lawn areas, situated in a quiet cul-de-sac in Stanway. The residential service is an extended bungalow giving optimal space to those we support.

Participating in community activities is encouraged and the people we support are supported to enjoy a wide range of community activities including swimming, college courses - including drama, cooking, information technology - day services, and socialising with friends and family. Stanway Villa also has easily accessible churches, pubs and coffee shops just around the corner.

We support and encourage individuals to develop their life skills, increasing their independence and ensuring they continue to live active lives.

About Stanway Villa

- All bedrooms are en-suite.
- Open plan lounge and dining area.
- Conservatory leading to a patio area which is adorned with hanging baskets and a seating area.

Our Services

- Are outcome-focussed and highly person-centred.
- Provide 24/7 residential care.
- Provide activities tailored to the interest of the individuals we support both in and out of the home.
- Are holistic, with person-centred care and support developed in collaboration with the people we support, their families and a multi-disciplinary team of health care professionals.

At a time that is right, we are able to offer a pathway to further independent living. This might include accessing one of our Supported Living or Outreach services. We strongly believe that every person we support should receive the right level of care in an environment that meets their needs wants and wishes.

Please talk to us about how we can work with you to develop a transitions package.

“Stanway Villa provided a homely environment and promoted a positive and inclusive culture. People received planned and co-ordinated person-centred support that was appropriate for them. Management and staff supported people to have maximum choice and control of their lives in the least restrictive way possible and in their best interests. The policies and systems in the service supported this practice.”

“People’s support focused on them having as many opportunities as possible for them to gain new skills and become more independent.”
